Mr. W. J. Harder,
807 Ocean Ave.,
Jersey City, N. J.

Dear Sir:

The American Numismatic Association, which is composed of collectors throughout the country, is holding through its members exhibitions in various cities this week. It is by them called "Coin Week." There is an exhibition of coins at the Hamilton National Bank on the south side of 42nd Street between Broadway and Sixth Avenue. It may be taken up on Saturday or Monday.

We would advise, if you are interested in coins, to join the Association, as this organization would help you quite decidedly in your work. It publishes a monthly magazine and the dues including this publication are \$3.00 a year. I am herewith enclosing an application blank for membership in the Association. If you want further information, I would advise you to write to Mr. Moritz Wormser, 95 Fifth Avenue, New York City.

It also would be of profit to you if you could visit the Museum of this Society, which is open every afternoon but Monday.

Very truly yours,

Curator

HW:MB
ENCL.
